

THE QURAN

Episode 1

BEGINNING

I start with the name of Allah, the Most Merciful and Merciful. Praise be to Allah, Lord of the Worlds.

He is the Most Merciful, the Most Merciful. He is the owner of the day of judgment and punishment. My God! We worship only you and we ask for help only from you. Guide us to the right path, the path of those you have blessed. Not those who are subject to wrath and not those who go astray.

Chapter 2 - NIBIRU!

POLITICIAN2010

Nibiru Has Arrived...

What is Nibiru in Brief?

32 names of Nibiru: Planet-X has had many names in astronomy since ancient times. Sumerians named the planet "12. They named it "Planet" or "Nibiru" (translated as passing planet). Babylonians and Mesopotamians used 3 more names: "Marduk", "King of the Heavens" and "Great Body". Ancient Jews called it the "Winged Earth" because of its long orbit among the stars. The Egyptians used two names: "Apep" or "Seth". The Greeks named it "Typhon" and also used the name "Nemesis", which is frequently used in writing. Other ancient civilizations used the names "Lord of the Sky Shiva" and "God of Destruction". The ancient Chinese people used the name "Gung-gung", "Big Black" or "Red Dragon". Phoenicians "Great Phoenix", Jews "Yahweh", Mayans "Celestial Quetzalcoatl" or "Tzoltze ek". Nibiru was used as "Lucifer" in Latin. It is mentioned as "Wormwood" in the Bible in 8:10-12. Other names are: "Red or Blue Star". In Ramala he is referred to as "Fiery Messenger". It is mentioned in the Bible as the "Great Star". Referred to by Edgar Cayce as "His Star".

It is mentioned in Grail's message as the "Great Comet" and the "Comet of Doom". In ancient English writings, "Mother Shipton" is referred to as "Angry Dragon". According to the latest information about our Solar System, "X" means "10. as "Planet"

named. It was named "2001 KX76" by NASA, but this name was later changed to "Ixion".

Nibiru in the Quran

1) İli` Imran 3:137,

2) Yusuf 12:109,

3) Na`l 16:36,

4) Hajj 22:46,

5) R`m 30:9,

6) Fatir 35:44,

7) Mu'min 40:21

8) Mu'min 40:82,

9) It is mentioned in Surah Muhammad 47:10.

Chapter 3 - TIN

WHY DID GOD DESTROY THE OGLU OF ADEMOM TO THE BELOW OF THE LOW?

Then We brought him down to the bottom. Surah Al-Tin 95:5

THE ANSWER IS HIDDEN IN THE OATH IN SURA TIN.

1- By the fig and the olive, 2- By

Mount Sinai, 3-

And by this safe land.

4- Indeed, We created man in the most beautiful form.

5- Then we turned it to the bottom of the bottom.

6-Except for those who believe and do good deeds; For them there is a reward that never ceases. 7-

Then, from now

on, what can make you deny religion?

8- Isn't Allah the judge of those who judge?

FIG REPRESENTS JINNS, AND OLIVES REPRESENT HUMANS. GOD DESCRIBES HIMSELF AS FOLLOWS: "Allah is the light of the heavens

and the earth. The representation of His light is this: A cell in the wall; There is a lamp inside, and the lamp is inside a glass jar. Fanus is a star that shines like a pearl. It is kindled from a blessed tree, an olive tree that belongs neither to the east nor to the west. The oil of this tree will almost illuminate (so clear) even if fire does not touch it. Light upon light. Allah guides whomever He wishes to His light. Allah gives examples for people. Allah knows everything fully.

says (Surah An-Nur, Verse 35).

THE MOUNTAIN REPRESENTS ALLAH. THE PURPOSE IS WHICH TREE WILL REACH THE TOP. BOTH TREES WERE LEFT EQUAL DISTANCE FROM THE SUMMIT. EMÿN BELDE IS PLANET EARTH.

Chapter 4 - VISION

I start writing in the name of Allah.

Hello. I'm black. This is of course one of my nicknames.

Actually, I usually choose black when playing chess. Black represents defense.

Defense is harder than offense. Because its basis lies in discipline, determination, and patience. I'm not a professional player. But this game, which I have been playing since I was a child, taught me something different. An achievement to be thankful for, Vision.

Of course, I instilled this in my children.

Junior (middle 2) took 1st place among schools twice.

Vision; It basically means looking at it from a very broad perspective.

In every period of my life, I have looked at events from a broad perspective.

Now I'll tell you what I really mean.

Most of us are born and raised in a Muslim country, in a Muslim family. Most of us interact with our family, friends, school, media, radio, TV, internet, and our work, and we learn a lot from them.

Of course, everyone will learn from each other.

My preference has always been to learn firsthand.

For me, the first source of information on this subject is the Quran. Because 'We did not leave out anything in the Book. It is stated in the 38th verse of An'am Surah.

If the book covers us, that is, the created beings, those who think, when we ask why did you create us, it will answer: 'I created the jinn and humans only so that they could serve me.' ZARÿYAT 56. So, what will happen as a result of this? When we ask, he says that he will reward those who use the truth in the most correct way with heaven, and those who hinder the path of truth with hell.

When we ask whether heaven is the only limit when it comes to treats, he answers, "Indeed, angels are servants who have been honored." Anbiya 26.

One of the basic principles in vision is to ask the right question. If we ask if they do not want the treat, they will say, 'Neither Christ nor the angels who are close to Allah will ever hesitate to be servants of Allah.' NISA answers: 172.

You can think of this answer like this: Being a messiah is the last level before being an angel.

So a human can be an angel. Now you ask how is this possible?

But go back a hundred years from the beginning of the universe until today, you did not exist. (relativity)

There were those who had completed their evolutionary process and greeted Abraham at that time.

Completing the evolution process means completing the light, which is not possible in this world.

In other words, those who did not eat the calf that Abraham roasted could not be from this world.

Their worlds were different. These good news-bringers could very well be living carefree in their paradise.

But they were not in heaven and were helping beings from another world.

Maybe you've come this far thanks to them.

Because they crushed those who hindered the truth.

They did not think that their world was just their own world. Isn't this the main thing to help the right?

No! They gave us so much more. How do I know? I am reading the Quran.

They knew this was not our home. Just like they know that every place in the universe is their home.

'The angels said, "Wasn't Allah's land wide enough for you to migrate there?" they say. Nisa 97' Look!

The Almighty Creator wants us to travel and see first our world and then the universe.

Yes, I can almost hear you saying, "If only he had left the car at our door and put the keys on it."

This may not be true for you now, but for your child or grandchild.

Yes, you also have your car at your door. And such a car!

The sun cannot catch up with the moon, nor can the night outpace the day. Each one is floating in an orbit. Yasin 40

Meanwhile Ya! Sin; Oh man! means.

Construct the sentence well. Since it is not said that the moon can catch up with the sun, the moon can catch up with the sun.

What is meant by catching up here is speed. In other words, every celestial body has a speed in space.

The approximate orbital speed of the Sun is 220 kilometers per second (+/-20 km/s) Each floats in an orbit, yes.

Now I will not tell you strange facts about the moon. Check it out for yourself.

They ask you about the crescents. Say: "They are time limits for people and for the pilgrimage. Kindness does not mean entering homes from their backs.

But good behavior is the behavior of a pious person (who avoids disobeying Allah).

Enter houses from their doors. Fear Allah so that you may be saved.

Baccarat 189

While talking about the crescent in a single verse, he suddenly talks about the house and says don't enter through the back door?

Where is the vision? Can you see it now? Yes, our real home is the universe itself.

We will enter our car, our moon, from the side facing the earth, which is where only one side of the moon always faces the earth.

Even when we look at it from the earth through a telescope, we can see it going in and out.

When? In the crescent phase, because you can enter the door while it is in the crescent phase.

Look, there is a latest model car standing at your door. 4.53E9 years old. It's even older than our Earth.

His speed? :)) The sun cannot reach its dust at 220 km per second. Why have you ever heard the first 'Read!'

I assume you understand what is

said. Because just as we cannot drive a car or anything without training or a license, we cannot drive that car at our door without training, education or a license.

Understanding the universe and helping low-level beings in another world are the extremes in science and knowledge. Because if we do not help them, they will be selfish, unsympathetic, impatient, uneducated, unknowing of God, unknowing of the truth, and deserving of hell.

Stay healthy with love, respect, reading and learning.

Chapter 5 - FIGHT!

Struggle Surah.

What is the punishment for rape in the Quran?

What is the punishment for rape in the Quran?

"Do not approach adultery. for it is indecency and a very evil way." (Isra, 32)

Don't be like the ignorant people who keep coming back to the same place.

Only God gives what He wants and takes away from what He wants.

The question is: Why is the punishment for rape not specified in the Quran?

Isn't this question the greatest injustice done to the Quran and Allah?

If I had not answered this question even though I knew it, I would undoubtedly have committed this great sin.

In the links below, there are many different opinions about the fact that there is no punishment for rape in the Quran.

<https://eksisozluk.com/islam-ulkelerini-tecavuzun-cezasi-3687110?p=6><http://www.kuranincelerim.org/bulgu/kuranda-tecavuz-irza-gecme-cezasi-yok-mu/> <http://www.uludagsozluk.com/k/kuranda-tecav%C3%BCzle-ilgili-ayet-olmamas%C4%B1/> <http://www.turandursun.com/forumlar/archive/index.php/t-20034.html> <https://>

eksisozluk.com/islam-ulkelerini-tecavuzun-cezasi-3687110

When we ask the Religious Affairs Ministry what the punishment for rape is in the Quran, we get the following official answer.

""Penalties parallel to the penalty for adultery are applied to rapists.

Accordingly, if the person who raped is muhsan, stoning; If it is not muhsan, a penalty of 100 sticks (sticks) is given.

The act of benevolence accepted in the crime of adultery is defined as entering into marriage in a valid marriage.

There is no provision in the Holy Quran regarding the punishment of stoning.

In the Quran, it is stated that the punishment of a person who commits adultery is 100 lashes, regardless of whether he is married or not (Nur 24/2).

Stoning in fiqh books, Hz. Hz. in some hadith and tafsir books.

It is based on the practice of the Prophet.

According to recorded history, the punishment of stoning has been rarely used.

As for who will impose this punishment?

Adultery is considered a crime that requires hadd punishment in Islamic law.

Hadd refers to penal sanctions that must be fulfilled as the right of Allah, the amount and quality of which are determined by the text.

The execution of the limits is within the authority of the state and the execution is carried out on behalf of the public; For this reason, for example, a Muslim who witnesses his close relative committing adultery does not have the right and authority to apply the hadd penalty or any other punishment to this adulterer. Likewise, the punishment for rape is given by the state.

On the other hand, if the attacker causes other injuries during his attack, retaliation will be applied to him for these and the punishment of tazir may also be given at the judge's discretion.

Rape or rape is sexual intercourse without a person's consent.

It is an action generally performed by men towards women and boys and girls.

Rape is considered a crime against humanity.

There is no definition of rape in the Turkish Penal Code. Article 414 of the TCK defines the act of having sexual intercourse with a minor under the age of 15; Article 423 accepts the act of deflowering a girl over the age of 15 by deceiving her with the promise of marriage as rape.

Adultery, (Arabic: *zina*) (sexual intercourse between people who are not married to each other). [1] It is considered forbidden in Abrahamic religions and is considered one of the major sins. In Islam, a woman who commits adultery is called a *zaniye*, and a man who commits adultery is called an adulterer. [2]

Adultery is illegitimate sexual intercourse that requires punishment in some religions.

It is sexual intercourse between a man and a woman who are not legally bound by marriage.

In adultery, two or more people have sexual intercourse with their mutual consent, whereas in rape, there is no consent of either party. In other words, rape and adultery are separate acts.

So far, unfortunately, the Islamic world and Islamic scholars have inflicted a great injustice on those who were raped by including the crime of rape into the act of adultery.

In particular, women who were raped were treated as if they had committed adultery, were sentenced to stoning, and were saved with the cheapest penalty of caning or whipping.

Young children who were raped were also married to those perverts against their will.

Islamic scholars have searched for verses about this crime for years.

However, Allah sent not a verse but a whole surah on this subject.

And such a sura!

Struggle!

You cannot fight with God!

You can only fight among yourselves!

You cannot fight with God!

What is struggle?

work. (struggle:dele) 1. The hard work done between two parties to make each other accept their wishes, war. 2. Strong, continuous effort of a person or group to achieve any goal or to resist a force, struggle:

If there is a fight between two people, that person's rights will be violated. This is inevitable. Because essentially rape is a result of a struggle.

Struggle, Verse 1: Allah has heard the words of the woman who argued with you about her husband and complained to Allah. Allah was (already) hearing your conversation. Indeed, Allah is the All-Hearing, the All-Knowing.

(What we need to understand up to this point is why did the little woman come to the Prophet and complain about her husband?)

Struggle, Verse 2: Those of you who make zihar to your women should know that those women are not their mothers. Their mothers are only the women who gave birth to them. Surely, they (while making zihar) speak an unwelcome and false word. Surely Allah is most forgiving, most forgiving.

(There is an issue of zihar here. What is the issue of zihar? It is one of the interesting concepts in Islamic jurisprudence. In short, zihar is when a man likens his wife's entire body or a part of her private parts to his own mother. With this word, the man automatically divorces his wife and does not make atonement for her. It was a frequently used form of divorce during the period of ignorance, as there was no penalty of atonement.

So, the man divorced his wife. So why then did the man's wife complain to the Prophet about her husband? If your wife divorces you or you divorce your wife

What happens if you get divorced and you have sexual intercourse with your wife even though she doesn't want you? Wouldn't this be a crime of rape?)

Mücadele, Verse 3: Those who separate from their wives by making zihar and then go back on what they said must free a slave before touching each other with their wives. You are advised by this ruling. Allah is fully aware of what you do.

(Yes, the man has committed the crime of rape once. His punishment will be imposed separately. But if he wants to return to his wife again, he has to follow the rules of Allah from now on.)

Struggle, Verse 4: Whoever cannot find (the opportunity to free a slave) must fast for two consecutive months before touching his wife. And whoever cannot afford this, he must feed sixty poor people. These are so that you may truly believe in Allah and His Messenger. These are the limits of Allah. There is a painful punishment for the unbelievers.

Be careful! Before touching his wife, his wife, Almighty Allah says!

He doesn't mention anyone other than his divorced wife. In other words, it does not say to fast after raping a woman, or to fast and then rape a woman. Apart from this incident, the rapist;

"There is a painful punishment for the unbelievers."

THE PERSON WHO RAPES IS AN INFIRE!!!

THE PUNISHMENT OF THE DISBELIEVER IS CLEAR IN THE QURAN.

Chapter 6 - ABESE

BLIND!

I start writing in the name of ALLAH. Because he knows when I first started writing.

The surah begins with, "He grimaced and turned away."

Don't ask the blind why he turned his face, ask what the blind man was going to ask. Because the surah gives the answer to this.

He heard it with his ears. He ran towards the direction of the voice, for the sake of falling. He had heard of it before, but never had the opportunity to ask.

What was the blind man going to ask? Why am I blind?

If you were blind, wouldn't you ask someone who knows why? You see it, but I couldn't see it in my life, wondering if this is true.

They say one calamity is better than a thousand advices. But the man is blind, what is the cause of the disaster? What did he do in this world? At least give me some advice, it will ward off a thousand troubles.

What good is advice to someone who considers himself rich? Is wealth only in money? A person who sees himself as very knowledgeable thinks of himself as rich. Only if God wants you to be rich. That's when your color changes.

Yes, man is indeed both NaN (In computing, NaN, standing for not a number, is a numeric data type value representing an undefined or unrepresentable value, ...) and blind.

Why don't you admit that you are blind? It's right in front of your eyes, you don't accept it?

See what is being explained to you? Was it just you, you were one of billions of cells? You were given a shape. What really mattered was how you would reach your Lord. A cell was born, billions of them turned to their Lord. Then he died. He was buried in the grave.

It was the body that died. Your soul is the one who sees!

Isn't GOD the owner of your soul?

Doesn't He resurrect and reveal when He wishes?

If you blind someone's eye, He will resurrect you and make you blind again. Life for life, eye for eye, nose for nose, ear for ear, tooth for tooth. GOD does not send you to your world blind! You yourself are BLINDING each other!

Look at the food you eat. Take a good look! Can you see the atoms inside?

GOD, who sees them, is the complete owner of time. He has the power to disrupt and combine atoms over and over again.

He gave you the water you drank. You even polluted that water.

Now you know this! Don't say you haven't been here before! Don't say you can't send me here again. It may rain like rain, but you never know. It makes you blind and you can't see.

Don't go into the dark! Stay in the light, stay in the light!

Chapter 7 - KEHF

CAVE!

I start writing in the name of Allah.

Read it under his name. For it is only for his sake that I will tell you of a chapter of a straight book sent to those who descend to the lowest of the low.

The surah begins with, "It is straight and straight; you will not find any bending or crookedness." First to warn and give good news to the believers and then to give the opposite good news to the non-believers. Especially "God took a child." Those who say...

The journey of life begins with sleep. In the cave-like womb. With a long sleep. Only He knows how long it takes. There are two groups among those sleeping. One is Sin and the other is Jinn. And in this world, in competition.

You have two vineyards in this life, with a river running between them. One is your previous garden, the other is your next. The river is death. Who can enter his next garden without crossing the river? My Lord knows the number of those who crossed the river.

Believe it or not, time is divided into three and is like a river.
The beginning, the middle and the end. Just like Elif Lam Mim.

That river is born from truth. And he returns to the truth again.

Water came to the world from the skies. And he will go to the skies again. The plants of the earth mixed with it and became edible. Then it started with Adam to think about Allah for the first time in the world.

Every civilization had a father. Adam is the father of humanity. He became his enemy before he was even born. Those from Adam spread and established many civilizations. Destruction has become obligatory for those who commit injustice and falsehood.

Many have come and gone, like Pharaoh or, in rare cases, like Moses seeking God. He had found it before. It was found by following the reasons. Just like a leaf falling into the river. He saw with his own eyes the splitting of two seas. Now he would like to find the place where they meet. It was a sea. Say the Lord...

In order to find your Lord, you have to give up your blessing. He found it when he lost the only blessing he had. True knowledge was with Allah. Many sciences that the human mind cannot comprehend.

And he gives the knowledge he wants to whomever he wants.

The knowledge of that servant whom Moses followed was the knowledge of the journey of life. You have the authority to allow injury to save the ship from the oppressor. But killing people may be permitted by a higher authority and the social administration. Provided that the future matures.

No one has the right to kill someone alone. One should ask God, who is good and merciful, in place of the deceased.

But Allah knows what will happen in the future, and from Him comes the knowledge of mercy. Also the science of life. Also the science of travel.

Dhul-Qarnayn is the one who traveled the farthest from this world. People wanted whatever they wanted to see first. The future. He was in the upper rank of those who were given the knowledge of travel. It was as far as the black hole where the sun's life would end. What were you thinking, an eye like black clay? Even light could not escape from it, how could the sun escape? Everywhere in the universe is full of life. Is this difficult for God? He found a tribe. Those who oppress are drawn to torment at full speed, just like a black hole attracting those around it, and there is no escape from it.

Then he asked God for the past. He witnessed the birth of his star. A protostar, a massive radiation. Who, other than God, can protect those in a livable world from this great radiation? Someone's birth, someone's death is the cycle of the universe.

Then maybe he wanted to find the middle ground. He found those who could not understand anything. And those who deal with them.

The Milky Way Galaxy is a city in the universe... And a wall in the Milky Way was given to humanity. A stargate, a wormhole.

Those who could not understand words were those with five letters.

In this world we are three letters. Because we are three-dimensional. Age! Oh man! Oh Genie! Hey Jinn! Believe it or not, Jinn are also three-dimensional.

God has given a different couple to every world. Those world beings were five-dimensional. How can you talk to five dimensions? How can you not take five dimensions into your world? Your door is open. And no one had the power to close or open the door except what God wanted. He closed the door with God's permission. He fixed the wall and the passage. It was impossible to pass without knowledge.

Doors are opened with the permission of Allah. The treasure is found with the permission of Allah.

Life is a journey. The end reaches God. It starts from nebulae, galaxies, stars, planets, each with its own journey...

There are those who grew up with their father and mother. There are people who grew up without fathers and mothers. Humanity grows up orphaned, fatherless and motherless.

Be sure that there are many worlds that grow up with their fathers and mothers. Those who educate their children for God.

When a child is deprived of his father, he is called an orphan, and when he is deprived of his mother, he is called an orphan.

We couldn't see either Adam or Eve. We didn't know our mother and father. We are orphans, but humanity should not be lonely.

There are several ways to keep a coffee table that is missing a leg standing: The first one is to find another leg to replace the missing leg. The leg that replaces the missing leg may not be like the real leg, but it will ultimately serve a great purpose in keeping the coffee table standing.

We do not have enough words to describe how important a place mothers and fathers have in our spiritual world. God's words are inexhaustible.

That's why Jesus was given, even though he did not replace the father.

That's why Mary was given, even though she did not replace the mother.

He was talking about God, just a human. He was telling the children about the true truth. We didn't know what real rights were.

Did you find the name of the sura?

KEHF!

Chapter 8 - NIGHT OF QADR

NIGHT OF QADR

I write in the name of Allah. Read it with his name too!

Because I ask him for permission to teach and help me on a subject I don't know.

When you realize that you have asked for permission, that issue has come to your attention and the events you have been through have become integrated with that issue. And you put the pieces together like a puzzle. In other words, God has already given even the permission you asked for. All you have to do is use your mind.

I liken this event to reading the signs you see while driving on a road.

If you read the traffic sign incorrectly, you may have an accident.

On the path of life, God always gives you some signs. If you read it correctly, your chances of having an accident will be zero and you will reach your destination.

Ramadan is a sign that appears before humanity every year! And one day during Ramadan!

Night of Power.

What is magnitude?

“Value, value, reputation.

The level at which a star is located in terms of brightness.

Strong, powerful, powerful.

One of God's attributes, meaning "He is omnipotent."

Strong, powerful, powerful.

It is one of the names of Allah.

1. worth, value, reputation. 2. brightness. 3. powerful, mighty, mighty. 4. From the names of Allah. It is mentioned nearly 50 times in the Quran. The suffix "abd" is used as "abdülkadir".

Able to do a job. He is powerful and has power over everything. (Allah CC) "

First of all, a measure was needed for the concept of time.

"Yunus, Verse 5: It is He who made the sun a light and the moon a light, and appointed for it ranges so that you may know the number of years and the calculation. Allah created these only with truth. He explains His verses separately to a people who know."

"An'am, Verse 96: He is the one who splits the darkness and brings out the morning. He made the night a time of rest, and the sun and the moon a fine measure of calculation. "All of these are the discretion of the one who has absolute power and full knowledge."

After finding the measure for time, do not find the most valuable day.

"Qadr, Verse 3: The Night of Power is better than a thousand months."

Why do you think it is better than 1000 months?

The reason is hidden in this verse!

"An'am, Verse 98: He is the One who created you from a single soul. You have a place to decide and a place to be entrusted. We have explained the verses separately for a people who understand."

Man reproduced from a single living cell. This world was a place of decision making. But everywhere is temporary. It's like our short life. One day your life will end. In the world, in the sun.

Every living thing has a lifespan. The Moon is your safe place of mounting! If you think about it.

Who wants their children to die? If you knew that the world would be destroyed, wouldn't you try to get them on a ship to save them?

This world is a safe place, but its time is running out, just like Mars, which was once full of living things.

Wouldn't you leave your children in a safe place to save their lives? Read about the moon. Find out what it really is.

Drive people to reach out. Isn't saving someone's life the greatest deed a person can do in his entire life?

It's a great pain when you lose a family member, right? What if all humanity dies?

Only those who use their minds will survive. This is the rule of this universe.

What was he looking at on top of his mountain? To the moon... And to the unique beauty of the full moon.

The unique Quran was sent down to him in a night of power.

Today is the Night of Power.

"Kamer, Verse 1: Doomsday has approached and the moon has split." The ship was split in two to accommodate its passengers.

"Al-Qamar, Verse 2: If they see a miracle, they turn away and say, "It is a continuing magic."

Magic or science?

Thanks be to GOD who wrote the text.

Chapter 9 - ENBIYA

PROPHET

I write with God's permission.

Because I only write if GOD allows.

It is GOD who knows whether I can complete the article or not.

I can finish it if he lets me. This is how close I am to being held accountable.

However, the majority of people are heedless and do not understand this.

Understanding must be with the mind and heart. How can you understand if your soul is sick?

Even if the knowledge comes to them clearly, they deny it as if they were being oppressed.

They do not know that the real owner of knowledge is GOD. This actually seems like magic to them.

In fact, knowledge of every word on earth and in the sky belongs to Allah. GOD did not create the things on the earth, the things in the sky and everything in between in vain.

Did those who disbelieve not see that the heavens and the earth were joined together and We separated them? We created everything that has life from water. Do they still not believe?

GOD separated two adjacent, fused things from each other. Separate two adjacent things from each other. Did you see what's happening?

Don't you know what happens when two hydrogen atoms separate from one oxygen atom to form the hydrogen that makes up ninety percent of the universe? Or when you separate and combine!

The energy released when two fused substances separate is enormous.

GOD pulled out two different substances from something fused, then put them back together and arranged them.

When the earth and sky separated, the energy released was enormous. However, it is an energy doomed to disappear.

Two separate substances were formed, the universe consisting of water, which itself is the earth. The sky, layer by layer, surrounding the universe. And also this 'surplus' energy that is doomed to disappear.

When Iblis was expelled from heaven, the place was searched. In its own way, it was superior to water and mud. Heaven and earth belonged to God. This in between was exactly what he was looking for. He could have spoken before GOD here. He could move freely and see through matter.

This may sound fake to you. You may even think it's a dream. Even the prophet cannot make you believe, you can only believe if God wants.

Even if you are an inorganic and immortal robot that does not eat, there will be someone programming you. Doesn't your programmer bind you to him?

The Quran is the program book itself. It was written in His presence. All existing living things are made of water. Allah is all knowledge itself. He is on the water.

There is no need for revelation to know God. Only the Quran and a certain time.

In this first floor, the water level, that is, in the universe, many living things have come and gone and will come.

To Him belongs whoever is in the heavens and the earth. Those who are with Him do not become arrogant or tired in worshiping Him. Those living in the energy dimension doomed to extinction are the exception!

Of course, Iblis later realized that he had fallen into the wrong place. Because he witnessed neither the creation of the heavens and the earth nor his own creation.

When truth fell upon falsehood, falsehood's brain was shattered. He could not ascend to the sky, protected by strong towers.

On the water side, there were low-level races of their own. He looked for a way out. First he formed an army for himself. From horseman to pawn to missile gunner.

In order for him to move his army to the water side, the gate on the water side had to be open. How could anyone open the door from that side?

This requires knowledge and science, but if science and science were used for GOD, they would be useless. He should not have used knowledge and knowledge for the sake of Allah.

Later, he wanted to present himself as a god to his own satisfaction. Then maybe he remembered the resurrection day promise. In his own way, he would be a god if he could resurrect the dead on the ground. But in the place created from water, the resurrected body is still in the same place, where is the soul?

Every soul would taste death. If a person took the soul inside him, wouldn't his body become immortal? Maybe he'd turn them all into zombies.

Those who heed the message of Rahman! Don't rush to see these! In fact, people want both heaven and hell in a hurry.

"Wherever I go, I want it to end immediately," he says. Your fever may suddenly come from above and you will be confused.

We live on the third planet in our solar system. The world revolves around itself once every 24 hours. 365 days around the sun. What if you lived on a planet that revolves around itself once every 365 days and revolves around the sun every 3600 years? If you were given something like this in your lifetime, would you rush?

And if the outer layer of your planet is constantly decreasing!

If only those who disbelieved in GOD knew how time is managed.

No matter how hard the devil in the 'residual energy' tried, he could not stop those walking for the truth.

The best example of this is the story of Abraham.

He knew that his deity was untouchable. While everyone was looking, he saw the separation of the earth and the sky. The place where the demon is hiding.

That's why he surrendered himself to his creator. And he waited to be burned while tied on a mountain of wood. When the fire burned, rain and flood came suddenly out of mercy.

He dragged everything that came his way, barracks, huts and the last remaining idol.

He dragged himself, but he was already on the wood. Lot was his childhood friend.

He was looking at her in the square, screaming, but he couldn't do anything. When the flood came, he immediately jumped in and untied his friend's knots.

He held on to a piece of wood and was saved. It was God who made them friends.

Those who put them in that situation and destroy them are the devil's supporters.

The war with Satan started with Adam, the prophets were the pioneers in this war. They had only one side, and that was on the side of GOD.

Remember how the village was destroyed! Apply this story to a whole country and think of Moses and Aaron. It never changes.

The people who are destroyed will never come back. Now remember Zulkarneyi. You know, he fueled the iron. That time is now.

When the good servants who are the heirs on earth are finished, that's when Gog and Me-Dwarf come. Two plus three dimensional soldiers of Satan, one for humans and the other for demons.

Allah is the one who judges rightly. Only him can be asked for permission and help to be protected from the devil.

Chapter 10 - BACQARAT

BACQARAT

I write in the name of Allah.

Because I believe in GOD, who makes exemplary punishments a lesson to those before and after, and an advice to those who will be protected.

Elif, Lam, Mim! The longest surah begins with:

Elif, Lam, Mim! The summary of humanity is three words. Even the sura is divided into three parts. The beginning, the middle and the end. Introduction, development and conclusion of the book.

Isn't every novel like that? This is not the first book of Allah, this is the last book.
Let it remain unread!

Almighty Allah has a huge library, and this book is unique to humans.

It was written for those who can read it. It's not written for nerds, it's written for those who can understand, not for those who can't!

If you say you are not in that book, you are there from Elif to Mim! You will see yourself in this book or novel. Let's see where you are? At the beginning, in the middle, or at the end? Are you one of the good ones or the bad ones? Are you one of those who don't get involved in anything? From the scholars or from the oppressors? Are you a believer or a non-believer? Are you one of the smart ones or one of the geeks?

The owner of the time created a unity by arranging the events correctly. He gave the task to Nûn, and he wrote it down with truth. What's not in the book? No no! This world was created for humans. Needless to say.

As for man, his body is from the world and his soul is from Allah. For now, I will only tell you about Elif. So the beginning.
Your heart is not enough for Lam and Mim.

Those who are guided by their Lord are described in the first five verses. I will explain how the Lord leads, do not rush!

The most loved ones of the Lord were given in order; at number 5, there are those who believe in the truths that they cannot perceive with their senses, at number 4, there are those who pray to their Lord and perform prayers, at number 3, they give the sustenance given to them to the needy, at number 3, there are those who believe in what has been sent down and what has been revealed before, at number 2, there are those who have no doubts about the afterlife, N1.

How many times have you read baccarat and understood it in your life? Don't think you're making a reel!

Keep these five in mind. The next 15 verses are the exact opposite of the good ones, 3 times the amount.

The human equivalent has not yet found fire *17. in verse.

Describes the deaf, dumb and blind *18. verse. These or those three monkeys?

They were monkeys, they will remain monkeys. They can't go back anymore, they can't be human again.

Take a good look now *20. In the verse, these are those who see and hear, but still cannot speak.

In reality, humanity began *21. in verse. He performed his first prayer to him. Do you understand GOD *22. In the verse, when you look at the sky, when you drink water, when you eat bread!

Doubt fell upon you, didn't it? *23. in verse. Have you forgotten the first five, the ones your Lord loves? Actually, it is a summary of life. Faith, goodness and peace, or selfishness?

Good news in heaven, you will be provided with as much sustenance as you know! How can you want what you don't know? He gave what he knew at *25.

He already had all the examples in front of him, from micro to macro.

They also asked, Is there anyone coming down for the sake of Allah? You said I'm in! You promised and agreed. *at 27.

Or do you deny the One who created from nothing? The one who kills you and kills you and resurrects you in a different body each time? Of course you don't know your previous dress. You will return to him with the clothes you wear, eventually!

I swear, you will remain in this world until the day of resurrection, in accordance with the Book of Allah.

Don't just run away! You will try on many more dresses! If you tear someone else's clothes, you will be punished and you will wear that torn clothes too.

Everywhere you can set foot in the universe is the earth. To reach GOD, you have to pass through seven different dimensions. If he wished, Ademoğlu could have made seventy-seven dimensions, but he would never have been able to reach them. He knows everything.

He wanted to reach himself with truth. But how would he do this? Look, I'm explaining it with an example so you can understand it well.

You have landed a brand new job. You don't know anyone. After a month you will know everyone. Did you ask them their names?

There comes a time when someone calls someone by their name. And you follow them. GOD made them ask each other their names. Just like everyone named him.

GOD did not make time static. He created intersections over time so that he could teach in this way. Angels' time is static. Hopefully we will explain it in the future.

Just like connecting the dots in crossword newspapers. Depending on the density or magnitude of the intersection points, you will either go from the wrong point or the right point. The shape you will create has been drawn beforehand. It's up to you to connect the dots. Everything is written in the book. If you read it with the eyes of your heart...

Adam read this point. The one that is clean, distinct and fluid. Iblis did not believe. He put a fake dot at the intersection.

The souls of Adam and his wife are all over heaven. It was bound to intersect with Iblis somewhere around the corner.

Be smart too, connect the fake dots!

Both he and Iblis came out of heaven.

He understood his enemy and his friend. He was still an enemy to Iblis when he went down to God.

He remembered what he had previously learned from the angels and repented to his Lord. Thus, they all descended to earth together.

"O Children of Israel! Remember the blessing I gave you. Fulfill your promise to me and I will fulfill my promise to you. Just fear me!" *40. in verse.

You are actually a son of Israel, you speak Turkish now.

You said you were a Turk, what happened now? You are now an Israeli.

Is this difficult for GOD now? Or do you deny the verse?

You still don't remember, do you? God's blessing. The unity of all humanity?

"Believe that I have sent down as a confirmation of what is with you. Don't be the first to oppose him. Do not exchange My verses for things of low value; Just beware of me." *at 41.

Read now until Lam. *at 143.

He said to them, "Believe in what Allah has sent down!" When asked, they say: "We believe in what has been revealed to us." And they deny anything beyond that. However, it is a truth confirming what is with them.

Tell them: "If you were believers, why did you kill Allah's prophets before?"

Why did you kill the Prophet Muhammad?

You left his body in the desert heat for three days? You didn't approach him.

Still don't get it? If someone says he is a prophet, will you kill him immediately?

Let's see if GOD will protect you too.

"Do not say to those who were killed in the way of Allah, 'They are dead.' On the contrary, they are alive, but you are not aware." *154 also.

In the way of Allah! Muhammad is alive!

What happened? Are you sad? Where did you love the prophet?

Me? I am neither Muhammad, nor Jesus, nor Moses. I'm just black, I'm in Lam.

Have no doubts about the afterlife; you will definitely return to it with all your clothes.

Believe in the books sent down, give to the needy, pray to your Lord, pray morning and evening, it is easy, do not make it difficult.

Believe in GOD with all your heart.

BELIEVER'S

I write by taking refuge in God's mercy.

Read it, seeking refuge in God's mercy.

Because I seek refuge in God's mercy from the blame of unknowingly writing wrongly and being misunderstood.

I know the limits of your mercy and live accordingly.

These are simple measurements. To pray with faith and respect, to stay away from useless deeds and words, to give what is extra, to protect one's own chastity.

However, no one can condemn you for your relationship with your spouse or your dependent.

Under your hands? Extend your arms straight to your sides. Now lower it down, straight in front of you. Your concubines are under your control.

Whether your right hand or your left hand. Come on now, ask for more! You don't want to be someone who goes over the line, do you?

Your body is God's trust to you. Those who have Firdevs are the ones who stay true to their promise to him and protect his trust.

1-Man was created from an essence consisting of soil.

2-then a droplet was made in a durable headquarters.

3-then the droplet was created as an embryo.

4-then the embryo was created as a piece of meat.

5-Then a piece of flesh was created in the form of bones.

6-Then flesh was placed on that bone.

7-then it was re-established in another creation.

How sublime is the power and art of Allah, the most beautiful of creators! Isn't it?

After passing this far, you will definitely die.

Then you will be resurrected on the Day of Judgment.

Does one think that one cannot re-create the one who created different things with seven different creations on him?

However, isn't everything due to the grace of Allah, who sends down a certain amount of water from the sky and has the power to remove it if He wishes?

Where there is water, there is life. There are vineyards, gardens and plants. There are cows that give milk there. There is not only water in the universe but also in the world. There are many worlds, big and small. Intelligent life owner.

Nibiru is one of them.

Once upon a time, someone was transported to the world on ships. The south of the world was almost broken by the gravitational force of the giant planets.

They warned Noah. He said, "O my people, worship Allah. You have no god other than Him. Wouldn't you still avoid it?"

The infidel magnates from among his people said, "This is nothing but a human being just like you." He wants to be superior and dominant over you. If GOD wanted, he would definitely send an angel. "We have not heard anything like this from our ancestors in the past."

But they weren't angels yet. They gave me the drawn plans of the ship. When the ship's cauldron boiled, they put the sheep, cows and camels into it.

In the south, a huge piece of ice broke. When it collapsed, the wave passed over the mountains. He wiped out the living creatures.

You know the ending, right?

All this was with the permission of GOD. GOD made a plan like this.

He asked every messenger he sent: 'Does he promise that when you die and become dust and bones, you will be brought out?' they said.

He said to all the messengers, 'He is only a man who invents a lie against Allah, and we are not to believe in him.' they said.

Whenever a messenger went to his people, they rejected him. They were exiled, one after the other, and buried in history.

Many non-believer communities disappeared.

They always said the same thing. "When we die and become dust and bones, will we be resurrected?"

If it is said, "If you know, to whom do the earth and the skies and everything in them belong?"

"It's GOD's," you say. Doesn't He kill whomever He wishes and revive whomever He wishes?

"Who is the Lord of the seven heavens, the Lord of the great government?" Wouldn't you say "ALLAH"? Is it the concubine or your mind?

"If you know, the one who protects and protects, but is not protected and protected himself; "Who has sovereignty over all things?" If asked, wouldn't you say GOD?

Then how can you be deceived?

GOD has not begotten children, and there is no god with Him. Otherwise, each god would declare his independence along with the things he created and compete with each other for governance. GOD is far from what the polytheists describe.

GOD is the Knower of all secrets and witnessed things; He is greater than what the polytheists associate with Him.

When death comes to one of them, he says, "My Lord, bring me back."

"So that I may do righteous deeds in the things I have abandoned." No. This is just a word he said.

It is sent again and again, but it never becomes realised. Because there is an obstacle (barzakh) behind them until the Day of Judgment.

GOD said: 'How long did you stay on earth in number of years?' They said: 'We stayed for a day or part of a day, ask those who count.' Kale in lebistum illâ kalîlen lev ennekum kuntum ta'lemûn.

GOD said: 'Do you think that you have only a short time left, if only you knew.'

Lord, forgive and have mercy; You are the best of those who show mercy. You are the owner of mercy.

Chapter 12 - NOAH

NOAH

With God's permission, I write so that you can know. Read it to know, with the permission of Allah.

Once upon a time, GOD sent someone to warn his people about a painful torment.

He said, "O my people, I am a clear warner to you.

Worship GOD, honor Him and follow me.

So that He may forgive your sins and postpone you until a specified time.

Undoubtedly, when the time given by GOD comes, it will not be postponed; I wish you knew.

Ask Allah for forgiveness; because He is very forgiving. Ask for forgiveness so that He will send down upon you abundant rain from the sky. "He will support you with wealth and sons and create gardens for you and rivers for you."

However, there were rivers and gardens there. It was also raining there. People had sons and property. And there was so much for them to brag about...

So, what was the point of asking God for a delay?

GOD created man through seven different stages. Just as He created seven separate heavens.

GOD reflected His own light into His light. If He wished, He could even turn on His light.

Then a plant appeared on the ground with that light.

It was watered by the rain and grew.

What's wrong with you that you don't want to respect GOD?

However, it is He who created you in evolutions.

Then He will turn you back there and take you out again.

Then He will put you back in there and take you out again, over and over again.

Because Allah has made the earth a spread out place for you. In other words, the universe itself, called the earth, is for its creatures.

So that you can travel on the wide roads that open from it. In other words, you will follow those roads until the universe itself disappears on that supreme day, the day of judgment.

If you are postponed until the day of judgment, with the permission of Allah.

The world is a dress shop. But there are many similar stores around the world. Many roads lead to them. Will your soul be dressed in one dress shop? Your dress is of course your body.

Noah invited and warned them day and night! His invitation and warnings increased their flight.

He said, "Every time I invited them for your forgiveness, they put their fingers in their ears, wrapped themselves in their clothes, insisted, and grew arrogant and arrogant."

He stayed among them for a long time and saw the clothes of Vedd, the clothes of Suvan, the clothes of the brothers Yeghus and Yeuk, and Nesri. He saw each of them die.

Then he saw them worshiping themselves. In different dresses...

How about you put yourself in his shoes...

Those who worship themselves without knowing themselves.

Noah said: "My Lord! Indeed, they have disobeyed me and followed those whose wealth and children only increase their own disappointment."

Aren't there many rich people and those who follow them today, whose wealth and children increase their own disappointment? Those who set traps and do not believe in Allah?

Do you love the bodies of your loved ones, their property, their children, or their souls?

However, isn't it God who gives everything?

Is it not Allah who supports you with wealth and sons and creates gardens for you and rivers for you?

Why do people still follow those whose wealth and children only increase their own misfortune?
To find their curse from Allah?

Of course, GOD did not postpone them until the day of judgment. Because of their mistakes, they drowned and were thrown into hell, and they could not find helpers other than Allah.

ALLAH said: "Peace be upon Noah among all the worlds!"

Noah, in another world with his parents, said: "O my Lord! Do not leave any disbeliever on earth!"

....

With God's permission, I think. Because even before I start thinking, I ask God for permission. This may seem strange to you. In reality, this is how it should be.

Isn't believing the search for hope and truth?

At the same time, don't fakes, lies and deception begin with belief?

The surah with 69 verses begins with Alif, Lam, Mim. Just like Yin Yang. It tells about believers and non-believers at the beginning, middle and end.

In the beginning, there were those who passed the exam, those who graduated from the University of the Universe and received their diplomas. Before people.

They were those who hoped to meet Allah. That time appointed by Allah will surely come. Them; They already knew that He is the All-Hearing, All-Knowing.

Before there were people who could not pass the exam. Those who denied the signs of Allah and the meeting with Him, they have despaired of the mercy of Allah.

Do those who commit evil think that they can escape from this universe? What an evil judgment they make.

For them is a painful punishment.

People think that by saying "We believe" they will be left untested.

In fact, there are some people who say, "We believe in Allah." But when they are persecuted for the sake of Allah, they regard the oppression and mischief they experience from people as the punishment of Allah.

Cruelty and discord do not come from Allah.

With His permission, he didn't think to read the sign of rights in front of him! If you read the sign correctly, you will go straight to your destination. It was "He" who placed the Signs of Truth before you at all times.

To do jihad is to think about the truth with His permission. Whoever makes jihad does jihad only for himself. There are many thinkers in the world. Surely Allah is not in need of the worlds.

Now this is an example for you to think about. "After a while, they may force people to associate partners with Allah of which they have no knowledge; in that case, do not obey them. This is your test. Your return will be only to Allah, and He will inform you of what you were doing."

Life is a journey, you walk with thoughts to your destination. What if it's far? You find a upload.
Horse, donkey, cow, camel. What if it's further away? Car, plane, ship?
The further away, the more thoughts.

This is an order: "Wander through the earth and see how GOD created creation in the beginning! Then GOD will make the next creation. Surely, Allah has power over everything."

Those graduates thought of going to the beginning with truth, with their heavenly ships.
Their rights brought them to Abraham and Lot.

Wasn't it the greatest honor to be the ambassador of truth?

Wouldn't correcting a future injustice start from the past?

"We will send down a disaster from the sky on this city because they have gone astray." they said.

All those who wanted torment were caught with their sins. A crazy storm was sent to some of them, some were seized by a terrible sound, some were buried in the ground, and some were drowned. It was not GOD who oppressed them; they were wronging themselves.

This is how some of the original unbelievers perished. Is there no place in hell for unbelievers?

In the midst of human time, man revealed knowledge as he thought. As his brain developed, his heart atrophied. He was given books. Many examples were given for him to think and understand. With the knowledge given, he only learned his own brain.

It is so sensitive that the neural network in the brain is more sensitive than a female spider's web. That cry; Neither idols nor saints are caught.

In fact, every part of the network operates with His permission. Shouldn't permission be obtained from the owner of the network for the idea? Wouldn't thought then be reliable?

Then a person will not oppress himself.

It is the first book I wrote for you to read. I hope you will take advice. It is He who produces the book from the book that has been read to you.

In fact, they are clear signs in the hearts of those who have been given knowledge.

Thought is the perception of what is given correctly into the chest and soul. No one rejects the verses except the oppressors.

Allah is sufficient as a witness. He knows everything in the heavens and the earth. Those who believe in the mistake and do not believe in Him are the ones who suffer the real damage.

The true believers are those who seek sustenance and do not accumulate it. Their sustenance is to seek knowledge on the path of truth in order to attain truth. They only hope to meet Him. Those who resist, are patient and trust in their Lord.

Your true personality is what your soul learns from your thoughts.

Your body is just your dress. The universe of the Lord is vast. You cannot know where you will be born and where you will die unless "He" wants it.

At the end of human time, sustenance was reduced. Ingratitude for blessings increased. Life has become fun and games.

People looked for safe areas and shelter in fear and panic.
However, real life was in the afterlife.

Then they were put on a ship again and tested again. They stopped associating partners with Him for a while.
Later...

How many billion light years is the age of the universe?

Those who strive with their thoughts for the sake of

the one who tests; GOD is the Almighty Lord of the worlds, the one who makes people pass their grades, the one who gives diplomas, the one who is with those who do good, the one who brings out the bad from good and the good from bad, the owner of praise, the owner of miracles.

...

Chapter 14 - ZUMER

ZUMER!

I start writing in the name of ALLAH to praise the Lord and earn His praise.

If you want to praise and thank Him, you can start reading in His name.

ALLAH, the possessor of judgment and wisdom, has sent down such a book that it is a guide to truth...

For him, it is the center of doing business and producing value.

Don't you want the book to come to you so that you
can apply it and understand it?

The most beautiful words that are similar to each other.

This is Allah's guidance, with which He guides whoever He wills.

Many scholars and teachers came and went.

Did they find the value of these words?

Didn't those who took these as friends instead of GOD read this guide?

If they could read, they would understand their childish thoughts.

If GOD wanted to have a child, he would choose whomever he wanted from his creations. However, this
Quran was for adults to understand, not children.

Which child was all the information for?

Didn't humanity need a certain amount of time to become an adult? Understanding the beauty and
importance of the revealed words and confirming their truthfulness?

Or isn't GOD the heir?

In the beginning, the heavens and the earth were created in truth. There were many days and nights,
worlds, moons and suns that he grew and matured from infancy to childhood to adulthood.

Each of them was flowing for a certain period of time.

There were worlds that were mature with their contents long before our world. There would be worlds yet
to be born. Will the universe not survive after your death?

Every living thing in the universe that can think and analyze was created from a single soul.

That creature could not be alone, it created its mate over time. Thus life flowed from one world to another.

Just like the three dark stages in the womb, in the cell phase, in the tissue phase, in the organ phase.

Eight pairs of cattle were sent down for you from another world. These blessed animals are not animals of this world that can cause violence, instill fear, or cause harm!

When humanity reaches a certain maturity, wouldn't it be understandable then?

It explains everything from the beginning to the end, which can only be analyzed with the spiritual mind.

Of course, there were conditions for this. The owner of the conditions was GOD.

It meant calmly prostrating and standing at night, conscious of the afterlife and hoping for the mercy of the Lord.

It meant reading/listening/seeing/feeling the word calmly and following the best.

Are those who know and those who do not know the same?

Doesn't the wise man take advice?

Wouldn't it be GOD who showed him his way?

Doesn't he avoid worshiping the horny?

There was goodness in this world for those who did good. GOD'S earth was wide. He had many worlds. In which world was goodness?

In fact, water and light are from GOD.

The most beautiful mansions are those with rivers flowing beneath them. These are for those who fear their Lord.

The owner of this water sent it down from the sky and distributed it to the worlds on earth.

Then He brought out with it plants of all kinds of colors.

All plants contain various pigments that give them color. Although all color pigments are constantly present in all leaves, the crops are green because chlorophyll, which gives the green color, is dominant and other pigments are masked.

As the weather cools and the light decreases, the chlorophyll in the leaf begins to decrease, causing the carotenes to turn yellow.

The plant left without light dies in a short time after this color change.

Whoever Allah opens his chest to Islam, he is on a light from his Lord.

Just like plants/living things that feed on light. I swear, all kinds of examples in this Quran are given for advice.

Isn't it necessary to think analytically to get advice? I swear, each surah in the Quran describes a different purpose and event. You will see those verses as similar to each other.

An example from the Surah is Zumar 28 and 29.

It is 'language' that has conflicting partners.

If you haven't figured it out yet, I will

die too, and so will you.

Then, on Resurrection Day, we will stand trial before our Lord.

GOD takes away the soul (consciousness) at the moment of death; And those who do not die while sleeping...

He is dead. He was even buried in a grave. Others are asleep, the soul is in a different dimension.

He keeps those for whom he has sentenced to death, and releases the others for a certain period of time.

Even if he is dead, if judgment is not given, he will come back again and again. Only those who have been sentenced to death will not be released or sent away.

Death is different, isn't the judgment different?

Isn't it God who gives the verdict?

Why do people make decisions when the verdict is uncertain?

There are lessons and signs in this for a people who reflect.

Here is GOD! This is your Lord! Only His belongs the sovereignty and sovereignty! There is no god but Him!

This being the case, how come you are turning the truth upside down?!

If you deny it, GOD has no need of you. But He does not like His servants to be unbelievers. If you are grateful, he will be pleased with you. No one bears the burden of anyone else's sins. Then your return is to your Lord, and He will inform you of what you have done. He knows the essence of breasts.

What do you want, all the information?

GOD is the Creator of everything. He controls everything,

The decisions of the heavens and the earth belong to Him. Those who deny the signs of Allah are the real losers.

So be a servant only to GOD and be thankful.

"Praise be to Allah, the Lord of the worlds."

...

Chapter 15 - YUSUF

JOSEPH

I write, believing in the foresight (feeling and understanding the truth with the heart...) given by GOD. If you understand this truth, as you continue on the same route together, you will say, "Glory be to God; He has no equal, no equal, no partner." we can say.

The surah starts with Elif, Lam, Ra. It describes the person who reaches from Elif to Lam and from there to Ra. Reaching Ra??? Ra???

Reaching somewhere is possible with the mind. If you don't have a mind, what good is the place you reach? Don't you go to your destination by exercising your mind? What's the use of walking in the void?

We descended to the ground to walk to God. From the bottom to the top. Doesn't the one at the top see what's below? Doesn't it help those below to rise up?

A lot of supplies were brought down to the ground for those below. You cannot climb without equipment. How can one climb without holding on to GOD's rope?

He sent down an Arabic Quran to all humanity to exercise the mind and climb.

Material is an indispensable element for climbing. However, the material is not the main determinant. The important thing is to choose the material suitable for the characteristics of the route to be climbed.

You cannot climb up with heavy equipment. Extra transported material may negatively affect the activity as an unnecessary burden.

Even the best equipment alone is not enough for a successful climb. The material only acquires a function with the knowledge and skill of its use. GOD is the owner of the materials that provide knowledge and skills.

The whole of another language may be difficult for you. Your materials are the most beautiful stories and verses translated from that language.

There are five ways to climb. It describes the first of these ways, in the 12th Sura of the Quran; The story of Joseph is a story of mental problems.

This is the dream he saw and told his father.

GOD takes away the soul (consciousness) at the moment of death; And those who do not die, in the moment of sleep... You are with Him, in your sleep. In fact, what you cannot read with your eyes open, you can read with your eyes closed, in your dreams!

"Daddy, I saw eleven planets, the sun and the moon, and I saw them prostrating themselves before me," he said to his father.

God started telling the story from the beginning.

In the beginning, the sun had two wives, and both wives had two concubines.

The twelfth planet/verse was Joseph. Sun is his father, Moon is his mother. He had a brother on his mother's side.

His other nine siblings have different mothers.

They have the same father.

The story actually tells the beginning, middle, end of the planets in our solar system and related astrology.

Astrology, the science of time, derives from the Greek words Astro and Logos. Astro; It means planet, star and planet. Logos, on the other hand, means logic or word in simple language.

It is Allah who creates all words, languages, sciences and time.

His father did not want him to tell his brothers about his dream. Because Satan is a clear enemy. He is the one who makes all kinds of plans to prevent the brothers from uniting.

No matter how many plans the enemy made, his father knew that a divine dream was coming from GOD. He also knew that his son's dream would come true.

Even though Yusuf did not tell his dream to his brothers, they wanted to get rid of him.

They thought that their father loved Joseph and his brother more than themselves.

Because they also knew that their father was a source of light. Joseph and his brother were a large object blocking that light.

Which planet wants a huge planet in front of its sun? Could the planet want anything? you may think. But there is a stone from which rivers gush out. There is a stone that splits and water comes out from it. There is also a stone that falls with the fear of Allah.

He who has fear also has consciousness. Isn't our planet also a giant rock? Surely Allah is All-Knowing, All-Wise.

It is Allah who teaches the interpretation of events and completes the blessings. I swear, the story of Joseph and his brothers is a lesson for those who seek the truth.

There are twelve planets in our system, some female, some masculine, both in astrology and in reality. Mars, Jupiter, Uranus, Neptune, Pluto and Saturn are masculine. Mercury has no gender. Venus is female. These are the children of the first of the two sisters.

The sun is a masculine power. It represents the father. The moon is female; It rules your mother and the important female characters in your life. What about your world?

Joseph is Nibiru. Twelfth planet. In astrology, the twelfth house governs the subconscious, dreams, visions, intuition, instinct and secrets. In fact, it manages all secret, behind-the-scenes activities and dealings.

Psychotherapy and telepathic phenomena also fall in this house. The activity occurring in this house increases our intuition and instincts. Everything we harm ourselves with is connected to this house. Rest governs the coming to an end of long periods of time, as well as places where we are confined, such as hospitals, homes for the elderly, and even prisons.

It is in this house that we heal ourselves. It also rules self-sacrifice, inner suffering, limitation, and secret enemies. Finally, it governs helpfulness, especially one-on-one assistance.

Bünyamin is his brother. A system of three, the children of the second sister.

It was their third brother who was taken by the wolf while he was still young and weakened. Asteroid belt.

They initially planned to kill their brother Yusuf first, then they decided to kill him secretly. They were going to leave him in a well. Well effect metaphor in astrology. (The well effect. In other words, the blurrier the narrative, the more people will place themselves within that definition. You may be a little confused today...)

In fact, the giant planet Nibiru got lost in space due to the gravitational forces of its sister planets. He lost his star.

In fact, they resorted to lies and lied to their fathers. They said the wolf caught him.

In fact, a group of comets set Nibiru on a different course.

In fact, the Lord brought Joseph to a rich house. When they reached the age of maturity, the inhabitants of the planet Nibiru were given knowledge and wisdom by GOD.

The woman whose house he was in wanted to get what she desired from him.

He saw his reflection in a mirror at home, then he realized the fire he would encounter.

The mirror in astrology is an evidence of the Lord. The mirrors here are people and behaviors that evoke negative emotions in us.

It is the fire group, the woman who wants to lock the doors and get what she desires from Yusuf. There are three other groups.

Yusuf said: "I seek refuge in Allah. He is my Lord, who gave me a good place.

Oppressors cannot succeed."

In reality, there was only one exit from the route. When they passed at the same time, the atmosphere of the planet in front was torn behind it.

The owner of the house was never going to leave them alone. He was closer to them than any door.

When he saw that the shirt was actually torn from the back, the owner of the house said: "This is one of your traps. "Your traps are truly terrible."

All traps belong to Allah. He knows what every soul has earned. And those who disbelieve will know to whom the end of the world's land belongs.

Yusuf spent his life in prison for a while. In reality, Nibiru was on a very dark and troubled course.

Two more planets entered the same route with him. Aren't all the routes and planets God's?

One is a dry planet, the other is alive.

When the drought began on Joseph's planet, two rulers fought and one won.

There was a single ruler Nibiru's heir. In reality, someone would be released from prison.

He said, remember me in front of your master.

In fact, when they see the light, they become ecstatic and forget what is in the darkness.

The ruler of the time asked a dream.

He cannot sleep. You cannot sleep without permission. No dreams can be dreamed without His permission. Dreams and dreams in sleep are not even interpreted in his presence, without his permission. The answers to the questions were with Him.

Aziz's wife said, "Now the truth has come out. I wanted to get a favor from him. "Surely Yusuf is one of those who tell the truth," he said.

"I do not purify my soul, because the soul commands extreme evil, except for the one whom my Lord has mercy on. "Surely, my Lord is most forgiving, most merciful," said Yusuf.

In fact, the ruler appropriated Nibiru for himself. He gave him a great rank and position.

His torn shirt was replaced with a gold shirt.

In the middle of the sura/time, Nibiru could move as he wished in the Milky Way galaxy. GOD showers mercy on whomever He wishes.

From now on, it's the next time.

He made Joseph find his brothers; ALLAH!

He implemented a plan he had taught him and left his brothers in shock.

Jacob was not surprised. When his eyes turned white because of his sadness, he said to Yusuf, "I know what you do not know."

For every knowledgeable person, there is someone who knows better. When the golden shirt was applied to his face, his eyes opened and he said, "Didn't I say that I know from God things that you do not know?" said.

In reality, when the sun begins to fade away, Nibiru's atmosphere of gold dust (manna) will surround it.

In fact, most people will not believe these stories.

Even though they see many miracles in the heavens and the earth, they pass by and do not even look back.

At the end of the surah, every sentence was in peace, in the ruler's room, including prostration.

He is the All-Knowing, the All-Wise.

Chapter 16 - MARYEM

GOD said!

See the words of the Prophet, O fate of Hell! KHY 'A. SS. (Kef Ha Ya 'Ayn Sad)

This is a remembrance of the mercy of your Lord towards His servant Zechariah.

Isn't compassion, the sadness felt for the bad situation faced by a person or another living being, pity?
If destiny is fate? What is pitying the fate of Hell, using a person as an example for Hell?

Why would the Creator create what He created if it would harm Himself? Especially if this creation is Hell? If all knowledge belongs to Allah, can he harm himself without knowledge?

Isn't Hell the most harmful of those who cause harm? Then why did He create Hell from nothing? He created His creations from nothing, when they were nothing. Isn't the birthday of those created from nothing the day they were created from nothing?
Their names were given by Allah in eternity before they were created. It is not possible to create without a reason. Doesn't every creation have a process? Isn't there always a previous one? Will the next one happen before the previous one?

Sounds like a fairy tale, right? His was such a belief that he never gave up hope in any of the prayers he made, Zechariah!

Once upon a time, he prayed to his Lord in secret, in his old age. His prayer was answered immediately, but he was speechless.

How can he not be offended when he is an old man with a bent back and his wife is barren and old? A son was donated to him.

How could someone be surprised? He who came after himself was before him.

His name had never been given to anyone in the universe before. Yahya received God's greeting on the day he was created upon the greeting of prayer, when he was nothing!

Peace be upon him again on the day he dies. Just as his birthday was the day he was created in eternity, peace will be upon him when he dies in eternity (in the future). When the universe, that is, the material world, disappears and is resurrected, there will be greetings to it again.

In reality, the living are with Allah. He appeared as a fully alive, indivisible human being. One of the living to Mary. He said: "I am only the messenger of your Lord.

"I am here to donate you a pure boy."

Don't worry if you can't grasp everything right away. If 3D objects reveal 2D shadows, shouldn't 4D objects reveal 3D shadows, even if they are imperceptible? What if the dimensions are larger, wouldn't even the shadow of the object be real? The living one came from verse 19.

In fact, beyond the 7th dimension is closer to GOD.

He said: "I am a messenger of your Lord, assigned to give you a pure boy."

Mary said, "How can I have a child when no human has touched me and I am not an unchaste woman?" said.

In fact, wasn't it unfair for such a person not to have children? It is out of the question to have a child for GOD. He is supreme. When He wishes for something, He simply says to it, "Be," and it is.

GOD, the owner of time, events and space, has prepared these three criteria for every living being. It was time when the dates were ripe. The event was a birth. The place was where a spring emerged from under the ground for the first time.

Mary washed the newborn in this way, with God's permission. Baby Jesus told his name to his mother.

When she returned to her people with her child in her arms, she came across merciless people who did not pity the woman with the baby. When they showed the ugliness in their hearts, GOD made the baby talk. The devil, who made him think bad and talk bad, could not speak against the baby.

Blessed be he who comes in the name of the Lord!

Peace be upon him the day he was born, the day he dies, and the day he is resurrected. This is Jesus, son of Mary.

The soul sent to this universe remains until the evolution process. Evolvement literally means 'maturation, development, evolution'. The meaning of evolution in spiritual literature is; It is the stages and maturation process that the soul goes through to reach the level of human perfection. Your knowledge does not disappear because everything you see, hear, taste, smell and perceive is transferred to your soul. what you feel,

The process of evolution lasts until it is postponed by GOD for a portion of time until the day of religion. Some of them successfully completed their exam. He handed in his examination paper early and surrendered. If the horny people are not postponed until the day of judgment, their destination is hell.

The last day of the completion of evolution is the day of extinction of the universe. It is the last day of Satan's reign. The material dimension world will end and the spiritual dimension world will begin.

Sects differed among themselves. Woe to the unbelievers, for they will see and experience a great day!

The day you actually die is the day you die last. If you still do not believe in ignorance, Allah is my Lord and your Lord; Worship Him. This is the right way.

Whoever is in error, may the Most Merciful grant them as much time as they wish! When they finally see the punishment or the apocalypse that they were promised, they will know whose place is worse and whose supporters are weaker.

If you are still not dead after the Judgment Day, you will be in Hell. You will neither die nor find life there.

Do not confuse the destruction of this world with the day of judgment. The universe does not disappear with the destruction of a planet. The planet is destroyed and if there are any inhabitants on it, they are returned to their heirs. This is the end of the human race. However, the world is a dress store. And there are many different dress shops. The closure of one store does not affect other stores.

A closed store does not mean that it will not reopen.

This world is the continuation of a closed store. They were many generations with better wealth and appearance.

Don't worship money! Do not worship property. Don't worship the devil!

Do not lose prayer/prayer. Do not follow lust. Follow this information that has not come to you before. May God guide you to a straight path.

Do not harm or hurt anyone.

If GOD allows, you will find who you are.

Adam, Noah, Abraham, Isaac, Jacob, Moses, Aaron, Ishmael, Idris, Israel, Muhammad. On that day, the pious will gather as a delegation to the presence of the Most Merciful. Along with their other names given to them by ALLAH.

Satan and his friends are sent to hell deprived of water, the source of life. There is no water in hell because there is no life.

The delegation gathered in the presence of Allah on the day of judgment will speak the truth.

They talk about those who have attributed a son to the Owner of unlimited Mercy.

They say that because of this word, the skies were about to crack, the earth to crumble, and the mountains to collapse.

It does not suit Rahman to have children.

Everyone in the heavens and the earth will come to the Most Merciful as a servant.

GOD surrounded them and counted them one by one.

Is there anyone who knows the name of GOD that he has not told you?

GOD grants love to those who believe and act virtuous. Even to hell.

Many societies and worlds were destroyed before you. Do you perceive any of them, or hear their whispers?

What about you, Hell!

Chapter 17 - A'RÂF

I write to make a true and honest promise to Allah. Because GOD keeps what is right and decent at the highest level. If you want to know and witness the promise, you can read it in His name.

The surah begins with Alif Lãm Mîm Sâd. With a promise given to GOD, in the book of humanity.

A promise that could have been made to Him outside the book long before human history.

Because the one who made the promise was not a human being.

He said he would definitely do it. That he will be thankful for every different blessing created and given to him.

Promises are easy to make, hard to keep, Iblis succumbed to his arrogance and did not bow down in front of the created human being.

However, isn't every moment, object, event, information created by the Creator? Can you know what benefit or evil in the object, event, or information that God creates and puts before you at every moment, good or bad, will benefit you?

Creation is not a coincidence. Isn't it necessary to bow down spiritually and give thanks for every blessing that is brought to you? Of course, the arrogant Iblis did not know what benefit humans would bring to him. Isn't arrogance the same as holding oneself above everyone else and everything, pride and not being grateful? Doesn't the LORD, the Creator, know the result with or without a cause? As a result, the arrogant Devil was expelled from the highest level of Heaven to the lowest level.

Arrogance wants to prove itself right. He said: "Give me time until the day when people will be resurrected." The truth does not reject final requests. The time given is for the last day when the material world will collapse into itself. He said: "I swear that you will lead me astray, and I will set myself on your straight path to lead them astray."

However, the call was his own. GOD does not make you go astray! A person deviates from the truth because he does not know the outcome. If only he knew, I had him fired from the very beginning. Maybe he wanted to infect the person created for him with his gratitude.

GOD said: "Come out of there, scorned and expelled. "I swear, whoever of them follows you, I will throw you all into hell." He was expelled from the bottom floor of heaven to the top, and he got what he deserved, in a way he didn't expect.

Then, the person who had been shaped and named was turned to and asked to speak. An entire paradise was given for just one word of yours. Those who do not repent will be scolded, little by little. He looks for every way to deceive. A person takes refuge in Allah to protect himself from transgression. What good is heaven after being deceived?

There is no grudge in the hearts of heaven, there will be people to fear other than Allah. At the last moment, Adam repented and said to the Lord, "Go down, some of you as enemies to each other. You will have residence and enjoyment on the earth for a while." "There you will live, there you will die, and from there you will be taken out."

Thus, they left heaven as enemies to each other. His first feelings were hatred. When Adam repented, Yahweh gave him the most beautiful of human feelings. That feeling; It was arrogance, honor, modesty, in short, shame. It developed and grew with humanity and became a virtue. Some embraced this feeling, no! Heaven became their right, some shameless, arrogant friends became the devil's friend and the fuel of hell.

These are the verses of Allah. What does a person lose from truly believing in God's verses? Are those who pretend to believe and do not believe virtuous? Those who deny the verses and cannot bring themselves to obey them, they are the people of hell. They are those who hinder from the path of Allah and want to make it crooked and contradictory. They are also the ones who deny the afterlife. They underestimated their religion and the worldly life deceived them.

Aren't there even people in this life like Pharaoh, who were deceived by worldly life and everyone knows him? Even though they know the verses given to them, are there any unruly people in this life who get away and follow the devil?

Even in this life, there are people who, if God had willed, could have glorified with those verses, but who are stuck in the world and follow their own whims and desires. Satan put them on his back. Finally, they became one of the transgressors.

The situation of the people who deny the signs of Allah and follow them and worship them is like dogs. They just breathe without understanding anything. How evil is the situation of a people who deny the signs of Allah and wrong only themselves! plants in tribes like this. They are born, live and die.

The vegetation of a good and prosperous land will come forth abundantly and abundantly, by the permission of the LORD. Nothing but a useless plant emerges from what is bad and unfavorable.

Just as the winds seed the clouds, full words sprout minds, so that dead land comes to life with the permission of Allah. Those who cannot control their arrogance want to see those towns dead.

However, can't humanity walk with reason?

Humanity traveled with camels and learned about trains, automobiles and airplanes. If GOD allows, humanity can pass a camel through the eye of a needle. Of course, everything is possible with God's permission.

If you convert your matter into energy, for example electricity, you can transmit it anywhere, even through the eye of a needle. Provided that the transmitted energy is restored.

This is the phenomenon called teleportation. Humanity has been able to transform matter into energy, but humanity has not yet reached the mind that can restore energy. It may take a very long time for this to happen. Those who hinder this science will not be able to enter heaven until then. They will be put to sleep in a bed of fire, with a quilt of fire. Even if they sleep in their beds of fire, the mind will continue to work as long as the universe continues, and with the permission of Allah, the doors of dimensions will then be opened to humans.

Anyone who can pass from one dimension to another is passing between the heavens of GOD. This can only happen with the tremendous knowledge and power given by GOD. The Throne, which is the level of command and creation, is above the heavens and even the dimensions. Creating and commanding belongs only to Allah. On the day of religion, that is, on that last day when the material world ends and everything collapses into itself, everything will be clearly shown with full knowledge. It is also right to weigh the things done and processed that day.

The universe is so big that there are millions of planets in billions of galaxies. The "jinn societies" living on some of these planets have misled many of the people on their planets and included them among them.

Many of the jinn who have hearts but do not understand, who have eyes but do not see, and who have ears but do not hear, have been created for hell.

Many of the people who have hearts but do not understand, who have eyes but do not see, and who have ears but do not hear, are destined for hell. These are like animals, or even lower. These are the heedless ones.

Undoubtedly, GOD commands justice, doing good, and helping relatives; It also prohibits indecency, evil and excess. He gives you advice so that you may reflect. A world full of people who do not take advice have been turned into monkeys. This is very easy for the LORD, the owner of your DNA.

Remember your Lord in the morning and evening, with inner pleading and fear, in a voice that is not loud, and do not be among the heedless. Because those who are with your Lord do not avoid worshiping Him and do not become arrogant, they glorify Him and prostrate themselves before Him.

My Lord commands justice. Pray to Him in every mosque (place of worship), making the religion solely for Him. You will return to Him as He first created you. You don't know what He created a second time, you don't know your third dress, you don't know how many clothes you wear, you don't know how many times you were killed and resurrected until the day of judgment, will you die again other than your first death?

They didn't know about the jinn either. They really thought, as you do, that GOD would not resurrect anyone after death. This is your opportunity. Are you one of those who were before, where even your hearts, habits, behaviors, thoughts and feelings are similar? Are you one of those who seduce yourselves with their arrogance, like the devil, or are you one of those who turn their faces to Him at every prostration and give thanks?

Are you just from your own ancestors, sheikhs, shahs, community, pilgrims, teachers or from those who say that God will not grant them to His mercy with the assurance of your multitude? Or O my Lord! Forgive me and my brother.

Let us into your mercy. Are you one of those who say "You are the most merciful of the merciful"?

How bad is the situation of those who twist these words into something other than what they were told.

Who do you think is the one who explains the verses in different ways for a people who will be grateful? Whomever Allah guides to the right path, he is the one who finds the right path. And whoever He leads astray, they are the ones who are the losers.

When the Israelites regretted it and saw that they had strayed from the truth, they said, "If our Lord does not have mercy on us and forgive us, we will surely be among the losers and deserve hell."

Allah has already made good things halal and dirty things haram. In response to their prayers, not to sinners in this world, but to those who commit sins, knowing that it is a sin.

The ungrateful ones who have no intention of leaving have been shown the land of sinners, and they still live in their land without knowing themselves.

In order to know yourself, you do not need to know whose son or whose daughter you are.

Light created for you a mountain of human bodies. At the top was Adam. When you, who are at the bottom, look up, you see the mountain as if it is about to fall on you, right? However, the mountain is a shade to protect from the light. Do you want the Light to appear on the mountain that will crumble if it manifests itself?

Every body part on that mountain is actually a part that makes up the mountain. It does not matter which rock is on or under any rock within the mountain. GOD held the whole mountain of humanity as a witness. So that you do not say on the Day of Judgment that we were unaware of this.

These are insights from your Lord. It is a wisdom that comes after the book. It is a source of guidance for a people who believe, and a mercy so that you may be thankful.

A human being was a baby, he grew up through many times, places and events, he became an adolescent, he went through many times, places and events, he found his wife, he went through many times, places and events, he had a child. Who was the real owner of the child? Mother or father? Or is it both? He went through many times, places and events, grew old and died. The place belonged to Allah. Every moment of time belonged to GOD. Every event belonged to GOD. The child belonged to GOD. Why get into a fight? What partner can be associated with Allah?

Wouldn't one be grateful for perceiving each time, place and event differently with different sense organs? My guardian who teaches these, moment by moment, in time, place and event, is Allah, who sent down the Book. He protects all the righteous. Everything you see incidentally is his work. I always look for the signs it gives in every event and place. He guides to the truth.

Those who are unjustly arrogant on earth are kept away from the signs of Allah. Whatever miracle they see, they will not believe it. Even if they saw the path leading to the truth, they would not adopt it. But if they see the path of transgression, they will adopt it. This is so because they denied the signs and were indifferent towards them. Those who remained indifferent became the brothers of the devils. The devils pull them into the depths of transgression. The horny ones end up in hell.

O Almighty GOD, the devil expelled our parents from his paradise. Satan's son looks just like his father. He somehow wants to use the same path his father used to go up to seduce my believing brothers. believer

This time, throw my brothers to a place where I can see Heaven and Hell, so that the son of Satan does not seduce them, so that I can see what goes in and out of there. Because he can drag people's souls to hell.

My God, you have shown such arrogant people in the world that I would recognize them wherever they were. Make me a guard for them in the Hell of the arrogant. Give the heavens and the earth as long as they exist, so that the damned will not be able to come out of hell, except according to Your will. Let me welcome my believing brothers to Heaven with greetings. May the heavens and the earth remain eternal, except for Your will. O Allah, you are the one who saved me and my believing brothers from Satan and his descendants.

My God, I promise that I will be eternally grateful to you at that time.

Thank God.

Bismillahirrahmanirrahim.

GOD guides from the first to the middle with truth.

This is how He reveals;

"Hâ mim, Ayn sin kaf."

The person who sees his destiny is the person who sees hell.

In the end, the person who sees Hell is the one who sees his destiny.

Allah, the owner of time, space and events, established in the Throne, has the power to do anything with what He has.

Can you think of anything that someone who has these three cannot do? Bringing back the apocalypse at the time of apocalypse? Can a word that was made for someone else to hear come back?

Those who argue over verses and miracles know that they have nowhere to escape. The truth is what must be seen through the eyes of the unbelieving soul.

Look at the sky and see the moon. Its real owner is GOD.

Those who think that time, space and events are ownerless are personally observed by GOD.

This is the last warning of the Quran, sent flawlessly by GOD to warn the capital and its surroundings.

Imagine with your unique imagination that you own time, space and everything. What can you do that you cannot do? Isn't even the dream of power beautiful? Whatever you want and desire will happen immediately.

Or did you just dream of money? That's right; What do you think money can't buy? Those who make money their friend also know that money cannot revive the dead. It is GOD who resurrects the dead everywhere. It is the food on which we stand and revive.

The earth and the air we breathe are its atmosphere. There are many places in the universe to set foot on and breathe the air.

Even if it's a lot of money, how can you go there without his permission? He has the keys. There are many thinkers that GOD has spread in places where you can set foot.

What did you think? It was only you who spread the word in your world as a thinker. Do not the heavens and the earth belong to Him? He can bring together whomever he wishes, whenever he wishes, wherever he wishes. All places belong to him.

They can remove the limitation as they wish. That's when you see people from other worlds. Some come with sailing ships like huge mountains, their wind is light, some come with magnetic winds, and some have planets that are ships.

If God had willed, He would have created all the thinking people He created in the universe from a single mother and multiplied them.

Would he be the king of that single mother?

Allah admits into His mercy whomever He wills.

He did not allow the kingdom to be granted to the queenship except under certain conditions. Indeed, he is the one who left a corpse on Solomon's throne. Or do you think your path is the kingdom?

The sovereignty (sovereignty, kingdom) of the heavens and the earth belongs to Allah. He creates whatever He wishes. He gives daughters to whomever He wishes, and sons to whomever He wishes. He makes infertile whomever He wishes. He knows best what to give to whom.

GOD wants thinking creatures to surrender to Him, to trust, to rely on, to depend on, and to take shelter. He wants them to stay away from the great sins and all their abominations, and to be forgiving when they get angry. They respond to the call of their Lord and perform the prayer.

Their affairs/management are a council between them. (Council, parliament, board) The form of government in which the nation holds the sovereignty in its own hands and exercises it through the deputies elected for certain periods of time is closest to shura. They give more than the sustenance given to them to those in need.

When oppression and injustice happen to them, they help each other. This is the true way of Allah, the owner of everything in the heavens and the earth.

Do you want to leave the path and be destroyed?

Punishment is only for those who oppress people and commit unjust acts on earth. For them is a painful punishment. These will not be postponed until the end of time.

It is obvious that those who will be made to wear clothes again and again until the day of judgement. Their destiny is to eventually see hell. Those who are on the path of Allah know that they will eventually see hell. All living beings spread throughout the universe will see hell, but this does not mean that they will enter it.

GOD knows best who he will save from hell and what he gives to whom.

If GOD had given his servants sustenance and money in abundance, they would have gone rogue on earth. But He sends down the sustenance to the extent He wills. Surely He is fully aware of His servants and sees them fully. Whatever is given is the sustenance of the life of this world. But for those who believe and put their trust in the Lord, what is with GOD is better and lasting.

Whatever misfortune befalls you is because of your own actions. He still forgives most of them.

The decision on anything about which you differ belongs to Allah.

If you are in doubt about the book, ask the real owner of the events clearly and patiently before making a wrong judgment about a subject. The event will come back to you in time and space. You will be presented with what you should or should not do. For those who think this is a coincidence, it will bring us all together one day. The return is only to Him.

How can it be explained to unbelieving souls that the way of the Lord is different, look at the calls and books of your Lord.

When they see the torment, the wrongdoers will say, "Isn't there another chance for us?" they say. They came again and again, in different dresses. They have always been afraid of death.

Doesn't he who fears death fear Allah?

Is there no limit to forgiveness and mercy?

Will hell have mercy on those who do not think of hell in their destiny?

Will the LORD be a friend to one who changes his ways for evil?

Praise be to Allah, the Lord of the worlds.

CHAPTER 19

How many times is the prayer according to the Quran?

Published date: June 30: July 01, 2022 by politikci2010 Time: 00:00

Did you think that the Almighty Quran, God's gift to humanity, did not tell understanding hearts about when and in what way to turn to Him?

'We have not omitted anything from the Book. En'am, 38'

I swear, it is the devil who makes your thoughts less or more in your minds for the sake of evil.

Those who use sources other than the book of Allah, who established the moment, cannot know that the devil gives information that they do not consider whether it is appropriate...

'Angels said, "We will keep you away from all shortcomings. We have no knowledge other than what you have taught us. "Surely, you are the one who knows everything and does everything with wisdom," they said. 'Baqara, 32

Why does a person think that he has learned all the information himself, when even the angels say so? If you don't care about the teacher, won't his enemy target you? Doesn't he put many people behind him? If you learned it in the name of Allah, can you forget it unless He wants? You may say that it is up to you to teach, advise and inform. The information that always comes from him is everything. It is the most valuable. Maybe my Lord will accept my giving advice and information to a people who will be destroyed or suffer a severe torment as an excuse, and maybe He will save them. Do you not see or feel that destruction or severe punishment is coming upon you day by day? I say this as someone who holds the book tightly. No, I don't know Arabic, it's not necessary. We need to understand what God says not only with our brain but also with our heart. I don't want money or any benefit from you. Just research the book, compare what is said or written with the Quran. Doesn't the Lord know your feelings and thoughts? Are you praying in a language you don't understand? However, isn't he the one who created all languages? Isn't He closer to you than your jugular vein? Didn't He know everything completely? He just asked you to turn to him and know the book he sent... To perform the prayer correctly... In order to perform the prayer correctly, a person must strictly apply what is written in the book. One should follow God, not the devil. I will explain it to you soon, holding the Quran as a witness. I hope God will be pleased.

April, 103. 'Prayer has been made obligatory on believers at certain times.'

Allah is the purest of the pure. One must be clean when approaching Him for prayer.

Maide, Verse 6: Believers! When you stand up for prayer: (1) Wash your face, (2) wash your hands up to the elbows, (3) rub your head, (4) and (stroke/wash) your feet up to the ankles. If you have had sexual intercourse, wash yourself. If you are sick or on a journey, or have come from the toilet, or have had sexual intercourse with women and cannot find water, go to clean ground and rub your face and arms with it. GOD does not want to cause trouble for you. However, He wants to cleanse you and complete His blessing on you.

Maybe you will be thankful. The command to pray is in this verse!

If you really believe, you need to do these things in order, without increasing or decreasing. Increasing is from Satan. Allah wants full measure. Nothing more or less.

Don't be one of the liars who say we saw this from our prophet. You were not with Ahmed. Saff 61/6. The hadiths written as narratives centuries after his death are from Satan. If I were to ask you to tell me word for word what you said ten minutes ago, you wouldn't be able to say it. But you can defend a statement that was made into the air a hundred and fifty years ago. Words fly away, writing remains. But was the word written down a hundred and fifty to two hundred and fifty years later? Moreover, there is even a rumor that the Quran was written approximately 20 years after the death of the prophet. I say rumor because there is no archaeological or scientific evidence. 'Casiye, 6. These are the verses of Allah. We recite them to you as truth. Then in what statement after Allah and His verses will they believe?' The verses had to be words...not tablets like those given to Moses. May Allah collect the words in any way He wishes. Will you believe in the hadiths compiled by Satan later or in today's

To the scrolls written between 568 and 648, the ancestors of the Quran? My mind and heart say that the person who wrote these is Ahmed. If an angel appeared to you and said something long, wouldn't you write it down so you wouldn't forget it? Now you might even get it on camera...

It is the jealous devil who says that the Prophet cannot read or write. Let's go back to the prayer verse above, Maide 6. 'When you get up to pray', when do you get up to pray? In the morning. It says wash your face first, you know, washing your hands? Ablution is mentioned in 2 verses in the Quran, the other verse is Nisa, 43.. 'Believers! Do not pray while you are drunk until you know what you are saying, and do not pray until you have washed after sexual intercourse, except for those who are traveling. If you are sick or on a journey, or if one of you has come from the toilet, or if you have had sexual intercourse with women and cannot find water, do tayammum by touching clean and dry soil and applying it to your face and hands. GOD Forgives, Forgives. ' When you wake up in the morning, you don't know what you experienced in the evening. Anfal, Verse 11: When He (Allah) makes you fall into a light sleep as a security from Himself; He sent down rain on you from the sky to purify you, to remove the devil's whispers from you, to strengthen your hearts and to make your feet firm.

For absolute certainty, water, shower or bathing is essential. God wants you to wash and clean yourself and smell good when you wake up in the morning. When you wash, you also wash your hands, right? You wash your mouth, nose, ears and everywhere, right? Are you one of those who do not give thanks after washing? Won't you say words of praise to him in Turkish, which God understands and built him from the first day? That's when (1)

You wash your face, (2) you wash your hands up to the elbows, (3) you stroke your head (4) and (stroke/wash) your feet up to the ankles. While doing all this

You praise Him. If you have already washed, you do not wash your hands, mouth, or nose or ears again. When you stand up for the morning prayer, Allah is Kabir.

Say: Allah is the only great one. Allahu Akbar, that is, Allah is great! Or it is sublime..Like the Great Mosque, The Great Mountain. There are many things that are sublime and sublime.

The name "akbar" is mentioned 24 times in 22 verses in the authenticated Quran, but none of it is even hinted at, let alone used about Allah. Because the adjective/name of greatness is exactly El-Kebir, which is one of the 99 names. Because there is nothing like or comparable to Allah, let us use a name for Allah. In other words, "Allahu-Akbar" should definitely not be used for Allah.

While the 99 names are standing aside.

Which prayer is the first and the only?

Baqara, 238 'Pay attention to prayers, especially the middle prayer. Stand in prayer, giving yourself completely to GOD.'

The command for prayer is in this verse!

The meaning of the word salat ỳ vusta in the Quran is "the part of something between its two ends". (We can understand this as the middle of something.) It is used as "I grasped the string in the middle", "I broke the arrow in the middle". In other words, Allah commands us to pay particular attention to the middle prayer. What day and at what time did today start?

Even children know that a day starts at midnight, no matter what day it is, right? 00:00 is written. We move on to the next day. Was it so difficult to operate the mind that those who claim to be Muslims did not know that midnight is the middle of two days? Isn't New Year's Eve celebrated at midnight? Aren't even days taken from the next year? The middle prayer is the first prayer. This is the middle of two precious days that God has given you. Ablution is not required for this prayer as long as Allah's provisions are in accordance with it and it is clean. Those who catch this time should perform the first and one rakat prayer. While Allah gives many examples in His verses so that the wise and the foolish can be distinguished, the devil says, 'There is no such thing as reasoning to understand the Quran or reasoning to deduce religious rules.' says. Of course, the decision belongs to Allah, but how will you fulfill what Allah tells you without reasoning? There are beautiful sayings in our Turkish. I'm telling you, my daughter, my bride, you understand! Like. Are you asking which verse this verse supports?

Verse Meaning

Ve ekimi salate sidein river ve zulefen minel leyl(leyli), innel goodenâti yuzhibnes seyyiât(seyyiâti), zâlike dhikrâ liz zâkirîn(zâkirîne).

Hud, 114.. 'Observe prayer at both ends of the day and in the near part of the night. Good deeds erase bad deeds. This is an admonition to those who would seek admonition.

The command for prayer is in this verse!

In other words, the commandment 'perform prayers on both sides of the day', as it can be clearly understood, means morning and evening prayers, and the one performed 'in the near hours of the night' is the mid-night prayer. However, the point here is not to make the prayer exactly at 00:00. The time closest to the morning starts from this time. When going back from 100 to 0, what is the closest number to zero, starting from one hundred?

Morning prayer is 2 rakats. For this, it is necessary to apply the above ablution rules.

Isra 78 Verse Translation

Ekýmis salate li dulúkiý ýemsi ile gasakýl leyli ve quranel fecr (fecn), inne quranel fecri kane meýhudâ (meýhuden)

Pray after the sun has set, and the time limit is until the night darkens.

If you are going to sleep and rest, do not forget the Quran you will read in the morning prayer. Because the morning Quran is something to be seen. The command to pray is found in this verse.

Ar-Rum, 17.. So praise GOD when you retire at night and when you wake up in the morning.

Conquest, 9..So that you people may believe in GOD and His Messenger and respect Him, listen to Him and glorify Him morning and evening.

Man, 25..Remember the name of your Lord morning and evening.

Al-i Imran, 41.. "My Lord, give me a sign," he said. "Your sign is that you do not speak to the people for three days, except by agreement with a sign. Remember your Lord often, think about him evening and morning." Morning prayer is the time until the sun rises.

يٰٓ يٰٓ يٰٓ)Sbir(then be patient) يٰٓ

Qaf 50:39 Verse Translation

Fasbir alâ ma yekûlune ve sebbih bi hamdi rabbike kable tuluÿ ÿemsi ve kablel gurûb(gurûbi)

There is no order to pray in this verse, it only says to realize that it is Allah who sets and raises the sun, to be patient and to praise Him. The sun will rise or set soon, get ready for your prayer! You know those who worship the sun, right?

Be patient with what they say and praise your Lord before the sun rises and sets.

Fussilet, 37. 'Night, day, sun and moon are among the evidence of Allah's existence. Do not prostrate yourself to the sun or the moon. Prostrate yourself before Allah, who created them, if you truly worship Allah.'

This verse states that prayer should not be performed while the sun is rising or setting.

Tâ-Hâ, Verse 130.: Be resistant to their words, and glorify your Lord before the sunrise and sunset. May you be happy at night and at both ends of the day.

There is no command to pray in this verse either. It supports the verse Qaf 50:39.

Prayer is a worship done with the body.

If you want to glorify your Lord by praising him, it means respecting him with your whole self and body.

Wherever you turn, all directions belong to Him. But in collective worship, the situation will of course turn in one direction.

Al-Baqara, Verse 125: We made the Kaaba a focal point and a place of trust for the people. Use Abraham's station as a place of prayer. We appointed Abraham and Ishmael, saying, "Keep My House clean for the visitors, those who devote themselves to worship, and those who bow down and prostrate themselves."

Hajj, Verse 26: We placed Abraham in the place of the House (Kaaba): "Do not associate anything with me. And purify my house for visitors, those who live there, and those who bow and prostrate themselves."

You know prostration and ruku, right? There are many verses.

The evening prayer is the same verse again. Yes, Isra 78 is the same surah. Allah has made morning and evening equal.

Ra'd, Verse 15: Everyone in the heavens and the earth prostrates to Allah, willingly or unwillingly. And its shadows, morning and evening...

In other words, do not say that evening prayer is better or morning prayer is better. Both prayers are equal in size and complement each other. Evening prayer is three rakats. Do not side with those who increase or decrease, that is, the devil. Insha'Allah, do not be one of those in Surah Maun.

If you ask about the noon prayer, Allah has made the noon prayer a rest. Of course, the verses of Rum 17/18 have been sent so that you may praise Allah. However, there is no command to pray in these verses.

An-Nur, Verse 58: O believers, those who work under your command and those of you who have not yet reached adulthood must take permission three times: before the morning prayer, when you take off your clothes to rest at noon, and after the evening prayer... These are your three special times. Apart from these, there is no harm in coming in and out of each other's presence. This is how Allah explains the verses to you. ALLAH is Knowing, Wise.

As can be understood from the verse, he listed the special times in a working day. Do you go near your boss, manager or employer whenever you want? Here it is prescribed what the normal working hours should be in a day for those who are intelligent.

If you are asking about afternoon and night prayers, there is no order in the Quran. It is Satan who increases or decreases.

The sun must set so that we can desire its rising!

I hope Muhammad will produce 29 crops...

This prayer below has been written before.

It is a part of the prayer recited in prayer.

Its connection with the chapter is a small example of GOD's art of coincidence. The meeting and coming together of two entities or events under certain conditions and harmony is called coincidence. Coincidence and coincidence are not similar words. Do not confuse these two words.

My God, you are the perfect one. You are the only one, you are the one. You are the right one. You are eternal, you are the awesome, you are above the awesome. You are the one who is Samet. You are the one who is the light within the light. You are the owner of the earth, the sky and everything in between. You are the owner of everything that rotates, and you are the owner of the vortexes. You are the one who sees and watches, you are the one who is alive and alive. You are the owner of everything, humans, angels, jinns, living and non-living things. You are the one who gives life and takes life. You can do whatever you want to us. GOD is one and one. He has no equal or equal partner.

You are the owner of Ha, you are the owner of Ta. Elif, Lam, Mim, you are the owner. You are the one who will bring it to Ra. Age! You are the one who said. You're the one saying sad. You are the owner of Qaf, you are Ayn. Please forgive us and have mercy, O Lord! You are the most perfect of those who show mercy. You are on perfection.

You are the one who reads, you are the one who writes, you are the one who teaches, you are the one who sees, you are the one who hears, you are the one who knows, you are the one who watches, you are the one who does not forget. You are the one who makes it work. You are the one who washes and cleans. Please forgive us and have mercy, O Lord! You are the owner of mercy. You own the book. You own the books. You already own the library. You can write whatever you want and draw whatever you want. You are also the owner of the pen named NŪN.

O Allah, please forgive me and include me among your servants whom you have forgiven. Forgive me, my family, my mother, my father and my dead. You always have the power to do everything. Thank God, who created the worlds from nothing.

He knows best who will read this book.

It is Allah who completes.

Praise be to the Lord of the Worlds.
